Leaving a long tradition of semi-concept albums behind (or, at least, albums with a big sense of consistency and self-awareness), **The Kiss That Took A Trip** takes a deep breath and releases what is just a collection of songs. Fresher and more to the point than past LPs, “Punk Cathedral” is the best possible snapshot of what The Kiss is about in 2017. A musical project that is equally comfortable with standard alternative rock songs, epic instrumentals, acoustic dark ballads and numerous flirtations with diverse genres in touch with experimental music. A polyhedric sound always in search of the best atmosphere
